

## HARDWARE REQUIREMENTS FOR EQUALIZER SYSTEMS **PERVASIVE**

Please note: the recommended requirements are subject to change; please contact us for an updated list if needed.

**BSA does not support 64-bit workstation operating systems for our Pervasive applications.**

### WORKSTATION REQUIREMENTS

#### Recommended

2 GHz (or Faster) Processor  
512 MB RAM  
10 GB **free** disk space  
Windows XP Professional

#### Minimum

1 GHz Processor  
512 MB RAM  
8 GB free disk space  
Windows 2000

### SERVER RECOMMENDATIONS

#### Recommended

2 GHz (or Faster) Dual Core Xeon Processor  
4096 MB ECC RAM  
100 GB **free** disk space  
Windows Server 2003

#### Minimum

2 GHz Xeon Single Core Processor  
2048 MB RAM  
50 GB free disk space  
Windows Server 2000

BSA Software has worked with IT Right for network services and implementation for over 10 years. If you are in need of IT services, please visit their site at: <http://www.itright.com>

### PRINTER RECOMMENDATIONS

All printers used with Equalizer programs MUST be on the Microsoft Hardware Compatibility List:

visit <http://winqual.microsoft.com/hcl/Default.aspx> for a complete list.

### RECEIPT PRINTER RECOMMENDATIONS (Cash Receipting System)

Important: the receipt printer is NOT to be used on your network. It must be plugged in to the LPT1 port on one workstation. Furthermore, that workstation is NOT to be shared. If you will have a number of workstations using the Cash Receipting System, consider buying more than one receipt printer.

**\*\*\*PLEASE NOTE:** the Ithaca Series 90/150 printers are compatible with Windows XP. Ithaca series 90/150 printers will not work on Windows Vista or Windows 7.\*\*\*
