

Changing the Program Font Size

Questions? From within BS&A, go to **Help>Contact Customer Support** and select **Request Support Phone Call** or **Email Support**. Or, you may call us at (855) 272-7638 and ask for the appropriate support team. Questions for our I.T. team may be submitted by phone (same number), or by emailing itsupport@bsasoftware.com.

The /bigfont property increases the font size of the Menu Bar, Tool Bar, Pane titles, Tab titles, command links, and field values. The nodes in Application Views are not affected. If you wish to change their size, that is done in Program Setup>My Settings>My Preferences. The bigfont property is a user-specific option. Only the machine you work on is affected.

bigfont Property

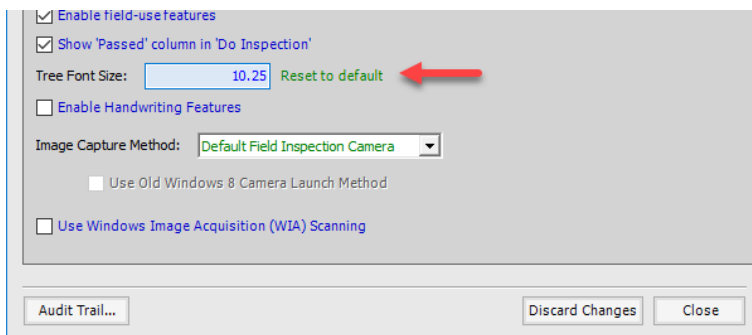

1. Close the program.
2. Locate the Building Department .NET shortcut. This may be on your desktop or in an Equalizer .NET Applications folder.
3. Right-click on the shortcut and select Properties. At the end of the Target field, type a space, followed by /bigfont.

4. Click Apply>Ok, then re-open the program.

Application Views – “Tree Font” – User Setting

1. Go to Program Setup>My Settings>My Preferences.
2. Enter the size you want in the Tree Font Size field (the default is 8.5).

3. Click Close.
