

Export Layout for Tax Names and Millage Rates

Last updated: 08/08/2001

General Information

- ~ There is one file for this export, containing various pieces of data that correspond to each tax heading per school district.
- ~ Each record is delimited by a carriage return (x'0D') and line feed (x'0A').
- ~ All records are fixed record length and fixed field length. Data fields in the files do not have delimiters between each field; the data should be continuous in each record.
